ROBBERY ARMED SEQUEL.

Allegations Against Police.

A RAIN OF BLOWS?

The case was resumed at the Assizes this morning, in which two Chinese are charged in connection with an armed robbery which occurred at 6 and 7, Kak Hang Village, Kowloon City, on the evening of October 16.

Kwok Chun, a male inmate of the house, who had identified the first accused and brought about his arrest in Shamshuipo, was recalled for cross-examination by Mr. Hin-shing Lo, counsel for the defence.

With the benefit of the substan-

tial preference given to British S manufacturers, undoubtedly a large business is done with the Dominion, & but this appears to be very much smaller than might reasonably be expected. The United Kingdom is the only country which buys from New Zealand more than it sells to her, the New Zealand exports to the United Kingdom being, in fact, not 5 very far short of double the latter's exports to her. The disparity is seen more strikingly when the New Zealand purchases from various other countries are considered in relation to her sales to such countries. Roughly, for instance, New Zealand bought in 1930 from the United States, Jetween three and four times as much as she sold to her, but her sales to Great Britain were, as stated before, nearly dou-| ble her purchases. Some of this discrepancy, indeed, is due to trade in goods, such, for instance, as motor spirit, in which Great Britain practically does not compete. Only about a sixth of the imports, however, come in this cetegory, and in the remainder wide variations are found in the extent to which Great Britain participates. Dividing it,

for example, into two groups, ac cording to whether Great Britain supplies more or less than 60 per cent. of the imports, the total amount of these groups is, roughly, equal, but in the one the British share in 1980 was under a third of the total, while in the other it was about five-sixths. "QUEEN HIGH."

If you gave a high point such as the top of a building available the Rev. H. V. Koop. for your use for a couple of days, you can devise a stunt that will get attention.

Have your carpenter and artist construct a sign-device in the form of a box-kite. The large lower surface of the "kite" on a wire which is of dull colour so as to be invisible from the street. -- A heavy white string runs from the lower front of the "kite" to a building across the street or to some hidden roff spot below the "kite." The idea is to create the

llusion of a flying kite. . The lettering must be plain enough to be seen from the street. Another way to make use of a high spot is to have a "screen" constructed of panels which resemble playing-cards. Two - or three panels will be enough, depending upon the points of vantage from which the "screen" will be seen. Each panel bears the same copy-"You haven't seen anything until you've seen "Queon High," the fresh funny farce at

Should Women dread the approach of a perfectly natural event?

TATURE never intended you to suffer L Vunduly. Why is it then that so many thousands of women experience such pain and weakness?

Simply because the body lacks calcium.

That is the reply, supported by the best medical opinion. Calcium is the vital food of every body cell, and any shortage hinders the correct performance of all bodily functions, particularly those of women:

The use of KALZANA, the calcium-food, for a few weeks provides the whole system with all the calcium (lime) needed to establish that care-free, vigorous health that Nature intended you to enjoy.

But it must be Kalzana, as only in this scientific form (a combination of sodiumlactate and calcium-lactate) will the calcium be taken up and retained by your body.

Lose your dread—re-establish the functions on a normal basis by starting a course of Kalzana to-day.

Sold by all Chemists and Stores in bottles containing 75 tablets.

"Christian Science" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, December 27.

The Golden Text was: "The glory of the Lord shall be revealed, and all flesh shall see it together: for the mouth of the Lord bath spoken it." (Isniah 40; 5.)

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "If ye love me, keep my commandments, And I will pray the Father, and he shall give you another Comforter, that he may abide with you for ever; Even the Spirit of truth; whom the world cannot receive, because it seeth him not, neither knoweth him: but ye know him; for he dwelleth with you, and shall also, was "Come Unto Him," the be in you." (John 14; 15-17.)

The Lesson-Sermon also included the following passage from the Christian Science textbook, "Science and Health, with Key-to the Scriptures," by Mary Baker Eddy: "Science is an emanation of humidity was 78 at 10 a.m. and 79 possessing singers of their talent the divine Mind, and is able to interpret God aright. RUINED BY POLITICS.

When Mrs. Soderberg sought a divorce (says Reuter) she stated that before he was elected Mayor of Hazelcrest (Illinois), her husband came home of nights, put out the cat, never swore, drank, or smoked cigars. Now he smoked big black cigars and drank and swore. He refused to put the cat out, and the dinner got cold waiting for him to come home.

The judge gave her a divorce.

JUDGE AND CONVICT THE BEST OF FRIENDS.

But Death Parts Them.

"I WANT TO THANK HIM."

An Old Bailey judge's wreath was on the coffin of an old convict, a man who spent 34 years of his life in gaol for thefts which totalled £14—when he was laid to rest in

Kensal Green Cemetery. Judge and convict met for the first time in the Recorder's Court of the Old Bailey, where Sir Ernest Wild, after listening to the heartrending drama of a man who never [had a chance to go straight held out a helping hand to the grey-haired old man of 70 in the dock.

The old convict walked out of the dock to freedom, and a job-a humble job of selling newspapers on a pitch outside a London tube station. He pledged his word to go straight ... and he did. He never turned the corner after that day, and he might have u in on his pitch still, earning an honest though meagre living but he developed cancer and died in a London hos-

Sir Ernest Wild used to sit by the bedside of the man he had saved. It was wonderful to see them together, judge and convict talking about the cathedral city which both in their school days. And every time the Old Bailey judge went to see the old convict he brought a bunch of flowers to perfume his sick-room.

Every nosegay which the City Fathers placed on Sir Ernest Wild's table in court went to the old convict with a kindly message from the judge who was his friend.

The old convict's last thoughts were of the judge, and he breathed his name in his death agony, "! message to Sir Ernest Wild," whispered "I want to thank him before I go." But it was too late, and he passed away without uttering his thanks.
